

DETAILED ACTION

1. Applicant's response and amendments received December 18, 2009 is acknowledged.

Claims 1-50, 52-57, 61-63 and 69 have been canceled.

Claims 51, 66, and 73 have been amended.

Claims 74 and 75 have been added.

Claims 51, 58-60, 64-68, and 70-75 are pending in the instant application.

2. Applicant's claim amendments have overcome the rejection of claims 66 and 72 under 35 USC 112 first paragraph. As such, claims 58-60, 64-68, and 70-73 are allowable.

3. Claims -60, 64-68, and 70-73 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(b), claims 51, 74, and 75, directed to the process of making or using the allowable product, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

4. Because a claimed invention previously withdrawn from consideration under 37 CFR 1.142 has been rejoined, **the restriction requirement between groups I, II and IV as set forth in the Office action mailed on January 25, 2008 is hereby withdrawn**. In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

5. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jan Tittel on January 6, 2010.

In the claims:

The following claims have been added.

76. A library of factor VIII inhibitory antibodies obtained by the method according to claim 51.

77. A library of factor VIII inhibitory antibodies obtained by the method according to claim 74.

78. A library of factor VIII inhibitory antibodies obtained by the method according to claim 75.

6. Claims 51, 58-60, 64-68, and 70-78 are allowable.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Szperka whose telephone number is (571)272-2934. The examiner can normally be reached on M-F 8:00-4:30.

Art Unit: 1644

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ram Shukla can be reached on 571-272-0735. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
